

# Printable Head Shoulders Knees and Toes Activity for Toddlers

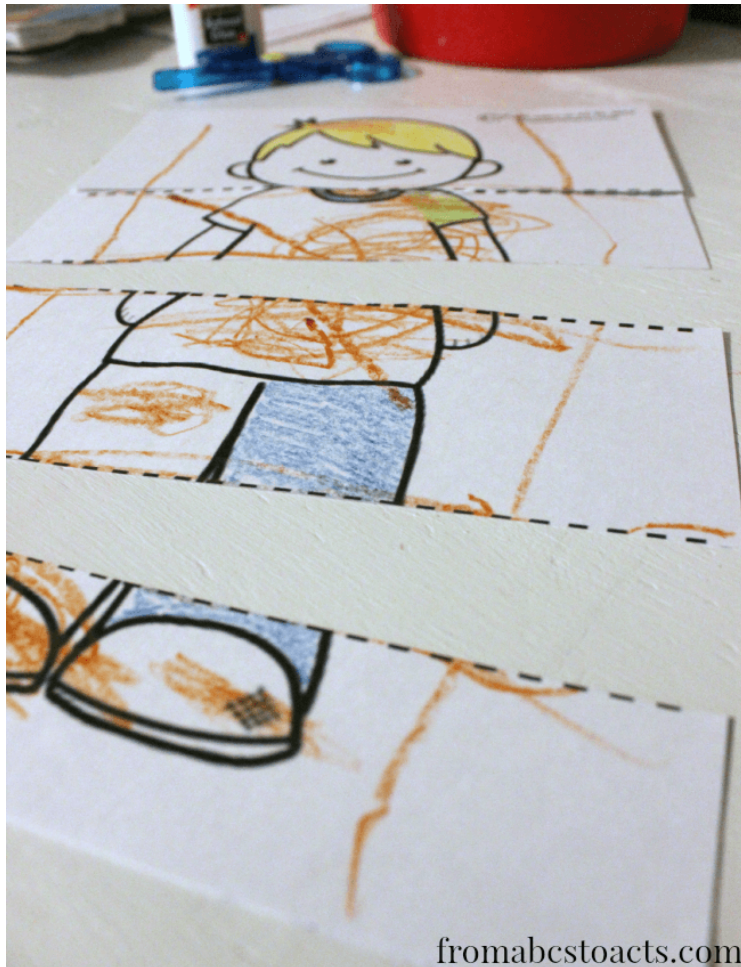

The age song, Head, Shoulders, Knees and Toes, that toddlers can identify about themselves is a great activity.

Kids love music and you can usually find them dancing along with just about anything so I knew that this would probably be a big hit. Turns out, you can dance to some music, practice fine motor skills, color with some crayons, and work on some early math all at the same time :)

First sing the song and dance to the routine for the children to identify their Head, Shoulders, Knees and toes.

With the Head, Shoulders, Knees and Toes printable (which you can grab at the bottom of the post), have the children find all of the body parts mentioned

in the song and started coloring. (You can cut the sheet out before they color or after)

Have your child cut along the dotted lines, this is where the fine motor practice is coming into play.

Once all of our pieces are cut, mixed them up and used some problem-solving skills to solve the puzzle and put them back into the correct order. Have Fun😊
