

# Baby Play Sensory Bag

<https://messymotherhood.com/baby-play-sensory-bag/>

You can gather all of the materials from this activity from your local Dollar Tree Store.

## Materials Needed:

Gallon Size Zip bag  
Hair Gel  
Glass Gems  
Rubber Animals  
Duct Tape

Squeeze an entire bottle of hair gel into the plastic bag, drop in a few glass gems, rubber frogs and lizards. Zip up the bag and then fold over the duct tape in half around the edges of the baggie. This keeps the baggie closed and prevents it from tearing.

It takes less than 5 minutes to make and maybe the least expensive toy.

Have your infant explore this bag with his hands.  
And don't be surprised if they will explore it with their mouth.

Like always please supervise your baby. Add words for baby's actions and name objects that child is exploring.

**THIS ACTIVITY RELATES TO THE FOLLOWING MEASURES ON  
INFANT/TODDLER DRDP: Curiosity and Initiative in Learning ATL-4; Cause and  
Effect-COG 8; Physical Development: PD-1, 2, 3, 4**
