For a simple and cheap way to enjoy the warm weather, make a giant tic-tac-toe grid on a shower curtain or tarp using duct tape.

Make Frisbee Tic-Tac-Toe for Super Cheap!

For a simple and cheap way to enjoy the warm weather, make a giant tic-tac-toe grid on a shower curtain or tarp using duct tape. Secure the corners with rocks. If you're using a tarp, stake it down through the grommet holes. It works best if you have two colors of Frisbees. Set up a throw line and let the play begin. You can buy the shower curtain, duct tape, and Frisbees at the local Dollar Tree store.

How to play:

1. Divide the players into teams, or play one-on-one. Each team has their own color of Frisbee.
2. Teams take turns throwing a single Frisbee toward the board. The Frisbee only counts for a point if it is not touching any of the grid lines.
3. The game is over when one team has landed three of their Frisbees in a row onto the board (up-and-down, across, or diagonally).
