

This **DIY Windmill** project for kids is not only fun to make, but also a great tool to help teach about the Summer Breeze! The supplies for this craft are simple, and you can find them all on Amazon.

We got our card-stock at a great price (see below for a great deal). I hope kids will have fun with their new toy windmill.

PREP TIME 5 minutes

ACTIVE TIME 10 minutes

TOTAL TIME 15 minutes

INSTRUCTION

1. Take your piece of paper and cut it into a perfect square.
2. An easy way to do this is fold the paper into a triangle, taking one corner and lining it up to the other side. This will leave excess on one side that, once cut, gives you a square! Simple origami windmill. Decorate both sides of the paper with whatever design you wish.

Once all 4 corners are in the middle push the push pin through them all as well as the straw or eraser. Be careful not to hurt yourself with the pin! This is how to make a windmill project for

kids

Enjoy☺

Blow Painting With Straws

Blow painting with straws is a simple but fun action Summer art activity that every school ageer would love. Use a straw to blow liquid paint on paper, creating amazing designs!

Supplies: Paper, Paint, Straws, Droplets / Direction: Have the children use the droplets to drop paint on the paper. Encourage the children to blow to move the paint on different parts of the paper. Enjoy☺
