

Alphabet Ice Painting Activity For Toddlers

The toddlers in your program is going to love to explore the ice alphabets as they are painting them. Watch their reaction when they melt.

Materials you need:

- alphabet ice mold
- sensory bin
- washable paint
- paintbrushes
- paint tray

Directions: Put water inside the alphabet mold and place it inside the freezer overnight! Pop the ice letters out and place them in a sensory bin Grab some washable paint and put it in an art tray! Let the kids have fun painting the ice. They should talk about which letter they are painting to go over alphabet recognition. See if they can find the letters of their name, create words or go over letter sounds for older children! Have Fun ☺ This activity is under the Infant Toddler DRDP Measures: A1 A4 S1 S2 S3 S4 L1 L2 L3 C8 C9 C10 Idea from Website: <https://abcdeelearning.com/alphabet-activities-for-toddlers/>

Alphabet Bubble Foam Activity For Toddlers

Bubble foam is super easy to make, and it is a great sensory activity to do with the Toddlers they are going to love scooping out the letters! **Which is an engaging way to practice letter recognition.**

Materials you need

- [letters](#)
- [measuring cups](#)
- sensory bin
- dish soap
- water
- [blender](#)
- [food coloring](#)

Directions: In a blender, add 2 tablespoons of dish soap, 2/3 cup of water, and a few drops of food coloring! Blend on medium and dump into a sensory bin. Repeat this step for each of the colors you want to use Have the kids use scoops or just play with their hands in the bubbles! They will grab/scoop letters and identify them! They can search for specific letters that you ask for, or they can just find them and tell you what they are. Play with the bubble foam after! You can even add some of their other favorite toys inside.
