

On May 5, 2017, Pinnacle Foods Inc. issued a voluntary recall of Aunt Jemima frozen food products due to possible listeria contamination.

The California Department of Education Nutrition Services Division (NSD) strongly recommends that food program operators take precautions to ensure these products are not served or consumed, and that they are thrown away or returned to the place of purchase.

Please note that per the U.S. Department of Agriculture (USDA), these products are not USDA Foods items.

The following information is directly from the USDA Recalls and Public Health Alerts Web page:

“Pinnacle Foods Inc. is voluntarily recalling all “Best By” dates of Aunt Jemima Frozen Pancakes, Frozen Waffles & Frozen French Toast Slices distributed nationally in the United States and one product into Mexico because they have the potential to be contaminated with *Listeria monocytogenes*. No illnesses have been reported. The products are being recalled as a precautionary measure given the health and safety of our consumers is our top priority. Pinnacle Foods initiated the recall after testing indicated the presence of Listeria Monocytogenes in the plant environment. We are working in coordination with the Food and Drug Administration (FDA) on this recall.”

All affected distributors and retail and food service customers are being notified and the affected products are being removed from store shelves.

This announcement does not apply to Aunt Jemima dry mixes and syrups, it only applies to the Aunt Jemima frozen products.

All ‘Best By’ dates of the following products are included in this recall:
