

INTEGRATED PEST MANAGEMENT PROGRAM

To: All Center Parents/Guardians & Staff

Subject: Integrated Pest Management Program

The Healthy Schools Act of 2000 requires schools and private child care facilities to inform parents and guardians when pesticides are to be used where children play, eat, and study. Beanstalk implemented an Integrated Pest Management Program that follows the notification requirements. You may also obtain additional information on the Department of Pesticide Regulation Integrated Pest Management web site, www.schoolipm.info.

You will be provided a list of chemicals that may be used during the year in or around Beanstalk facilities. These lists include exempt and non-exempt chemicals. Chemicals that are exempt can be used anytime without notice. They include ingredients, which are mostly non-toxic to humans such as: castor oil, cedar oil, cinnamon oil, citric acid, citronella, etc. Non-exempt chemicals are chemicals that may be toxic to humans.

Attached is the list of chemicals and an ADVISORY TO ALL PARENTS form. Please review these lists of chemicals and complete the ADVISORY TO ALL PARENTS form and return it to the supervisor of your Beanstalk center.

BEANSTALK

**PESTICIDE MANAGEMENT
ADVISORY TO CENTER PARENTS & EMPLOYEES (07/17)**

Based upon the Healthy Schools Act of 2000, Beanstalk has adopted an Integrated Pest Management Program. Inherent with this are efforts to reduce pesticide use as much as possible. While it may occasionally be necessary to apply a pesticide, these will only be used as a last resort.

You have the right to be informed prior to any pesticide application that might be needed in your Beanstalk center or work site. In an emergency, pesticides may be applied without prior notice, but you will be provided notice following any such application. To receive notification, please complete the following information. *If the form is not returned, we will assume you do not want to be notified.*

At any time should you have questions or concerns about pest management within a Beanstalk center or worksite, contact the Center Supervisor or the Center Manager.

Parents: Complete and return it to your child's Beanstalk center.

Center Employees: Complete and return to your supervisor

PESTICIDE DISCLOSURE NOTICE

Pesticides are the products Clark Pest Control uses to control the target pests listed in your agreement. Pesticides make a better life for all by helping control disease carriers and wood destroying insects, thus protecting our health and property. When properly used, pesticides pose no problems to humans or the environment. Your Clark Technician is a State certified applicator whose knowledge is constantly being upgraded through regularly scheduled training sessions. If you have any questions, please call us at our toll free number: 800-936-3339 or write to: Clark Pest Control, P.O. Box 1480, Lodi, CA. 95241-1480.

STATE LAW REQUIRES THAT YOU BE GIVEN THE FOLLOWING INFORMATION: PESTICIDE NOTICE (SECTION 8538)

CAUTION: PESTICIDES ARE TOXIC CHEMICALS. Structural Pest Control Companies are registered and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that, based on existing scientific evidence, there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized.
