

BEANSTALK

PHOTOGRAPHING, VIDEO TAPING, AUDIO TAPING AND POSTING IMAGES OF CHILDREN POLICY

(Board Approved 12/3/2010)

Parents have the authority to determine if their child(ren) will be photographed, videotaped, audio taped or have their images displayed or posted while attending a Beanstalk program.

In order to protect the confidential rights and safety of enrolled families, including images and the possible location of participants, each child who is enrolled in Beanstalk must have a Photographic Authorization Form on file. The Photographic Authorization Form gives permission or denies permission to *Beanstalk staff* to photograph, videotape, audiotape and/or post images of enrolled children.

The Photographic Authorization does not give permission to the other Beanstalk parents, their representative or visitors from the community (i.e. student volunteers) to photograph, videotape, audiotape or post images of children who are not their own. While attending a Beanstalk site or special event, parents, their representatives and visitors from the community shall not photograph, videotape, audiotape and/or post images of the children from other Beanstalk families without the parent's written permission to do so.
